**Stop Losing Valuable Listings
and Rental Income Due to Stubborn,
Offensive Odors !!**

**Save Up To Thousands of Dollars by
Avoiding Unnecessary Replacement of
Carpets, Fixtures and More!**

The Problem...

Loss of rental income or real estate commissions due to inhospitable odors. A property or rental unit can be shown over and over, but if unpleasant aromas prevail, those signed contracts may never materialize. From common sources — (smoking, pets, cooking, curry, fire damage) to the extreme and severe (decomposing flesh) — these lingering assaults can often be the last thing standing between your prospect and your lease or sale.

The Attempted Solutions...

You've used *air fresheners, ozone and deodorizers* that claim to eliminate odors and they *seem* to work... but only for awhile. You've tried fresh paint, new carpets and even thrown out the draperies and blinds. Again, *the problem odors keep returning* to make life miserable for all.

The Reason Conventional Treatments Fall Short...

Odor molecules have a secret, migrant life most people don't know about. Once let loose from the original odor source, they take over the place. *These particles invade and inhabit every single porous material imaginable* — drapes to vents, carpets to sub floors, paint to sheet rock and all the way into the studs (*and you're not about to replace those!*), no porous matter goes untouched. *And that's only HALF the story...*

The Invasion Continues...

After settling deep into every crevice, these repellent molecules *are still active*. They now *reverse direction, rise to the surface, become airborne and permeate new places*, only to maintain their never-ending assault on your senses.

The Guaranteed Solution...

The patented technology used by Rainbow Services is comprised of an *odor neutralizing vapor* that permeates all porous materials the odors have already found — (walls, ceilings, cupboards, doors, sub-floors, etc.) Our neutralizing molecules then *bind with the malodorous molecules converting them into a non-odorous compound*. *The ENTIRE ODOR CYCLE is eliminated permanently.*

Safe – Clean – Nontoxic...

Our odor removal system employs a balanced blend of selected ingredients found only in natural botanical oils. There are *no toxins, perfumes or residues* of any type.

The Rainbow Guarantee...

Complete and permanent odor removal or no charge.

Call today for a free estimate...

All you have to lose are the odors!
